Dear Madam,

Greetings from National Stock Exchange!

I hope this email finds you well. As you are aware that the Govt of Assam has signed a Memorandum of Understanding (MoU) with NSE for implementing the Student Skill Program (SSP). As requested, please find attached the copy of the MoU.

Skill development for enhancing employability and self-employment opportunities was one of the key themes in the Union Budget 2024 as well as the New Education Policy (2020) of the Union Government. NSE's Student Skilling Project (SSP) aims to empower the youth of various states with essential skills and knowledge in the BFSI (Banking, Financial Services and Insurance) sector, bridging the skill gap and enhancing their employment opportunities for the future.

The SSP has two levels:

Level 1: 20 hours training in the Foundation course in BFSI

Level 2: 30 hours training in a regulatory exam conducted by NISM

In order to successfully implement the Student Skilling program for the youth of Assam, we need the support of the Govt of Assam, the registrars of universities, the principals and the Nodal of each college. As discussed over our call, we propose to begin with a Faculty Orientation Program (FOP) for Nodals for every college in various districts. The FOP aims to give an overview of the SSP to the Nodals which includes the following:

1. Information about the Foundation Course in BFSI, NISM Regulatory course, course content, duration, various levels of the SSP program
2. Benefits of the SSP program
3. The value proposition of the certification in students resume
4. The expanding financial sector landscape, increasing demand and its opportunities

The FOR program will help the Nodals understand the SSP program better which in turn will help them in explaining the details to the students. This will help them in mobilising the students and registering them for this program.

The FOP will also be followed by a Faculty Development Program (FDP). We propose to train and certify the Nodals of various colleges in the Level 1 -Foundation course of BFSI. This will equip the Nodals to impart quality training to their college students. The FOP and FDP will take place over 4 days (approx 5 hours each day). At the end of the course the Nodals can take the Level 1 -Foundation course of BFSI exam and get certified.

The successful implementation of this program is possible only with your support and we humbly request for the same. We shall be grateful if you could please share the following with us at your earliest convenience.

1. Suitable location / venue to conduct the FOP and FDP programs
2. Share the list of all participants (Nodals of various colleges) in the attached excel file template
3. Propose your preferred dates to conduct these FOP and FDP programs
4. Share the district-wise college mapping in the attached excel file template

We look forward to your response and support.

Thanks and regards

Gaurav Motwani
